

## Debit Card Travel Notification

Your financial security is our top priority. To protect you from fraudulent transactions, we block international use of debit cards without a travel notification. Additionally, most out-of-state transactions will require that you select 'debit' at the point-of-sale, and enter your PIN number. If you are traveling internationally or out of your normal travel patterns, please contact us and submit this form so your cards won't be denied when you attempt to use them.
